### HERE'S OUR PROCEDURE:

A financial company registered with the FCA, in London, has appointed our Group of Companies to manage the leasing transaction of financial instruments, exclusively, with **Deutsche Bank/Barclays Bank/Santander Bank** (Stand By Letter Of Credit, Bank Guarantees, Proof Of Funds, Block Of Funds, and other financial instruments upon requests).

The transaction is structured as follows:

The provider opens a sub-account in **EUROCLEAR**, where Government Bonds equal to the amount of the financial transaction are deposited in the customer's name (all certified, and in compliance with anti-money laundering, and fund traceability regulations). The Bonds deposited in the sub-account are sent to **Deutsche Bank/Barclays Bank/Santander Bank**, which monetizes them, and creates the funds needed to build the financial instruments to pay for the insurance policy.

The deposit for a \$5 million BG/SBLC (the minimum), is **\$70,000** with an International Law Firm attorney/Notary, approved by us. Other can be found easy, in Italy/Switzerland/London.

The cost of **MT799/760**, for a \$5 million BG/SBLC is **9.99% of face value of financial instrument**, payable within 21 days.

Everything is sent via e-mail, and bank transfers are deposited in the form of an escrow account pursuant to local Civil Code, in EU.

Please note, that, everything is carried out in full compliance with transparency regulations, and contract regulations.

Kind Regards.

P.S. Offered price may fluctuate, accordingly, to market conditions, currencies fluctuation changing hourly/daily. Once "**FINAL OFFER**" is made, price is locked for 7 days.
